GAME VIEWING AND ACTIVITIES

The South Luangwa is home to 60 types of mammals - including elephant, lion, zebra, giraffe, wild dog, buffalo, hippo and antelope and has a reputation of being one of the best places in Africa to spot leopard. The park is a haven for birders with just over 400 bird species; these include 39 birds of prey and 47 migrant species. There are also a variety of endemic species such as Thornicroft's giraffe, Crawshay's zebra, and Cookson's wildebeest. Key wildlife include: lion, leopard, elephant, buffalo, wild dog, giraffe, impala, puku, kudu, zebra, hippo, hyena and endemic species.

The following activities are included in your stay:

Game Drives: Game viewing in the South Luangwa is considered to be some of the best in the world. It is a notably good place to see leopards, particularly in the dry season when they have less cover in which to hide. From Sanctuary Chichele Presidential Lodge, guests have the particular privilege of being able to go on night game drives when it is possible to see all sorts of animals that are seldom seen by day - like leopard, hyena and bush baby. Plains game, such as antelope and zebra, are not scared by the lights so you are able to get very close to animals for fabulous photographs. The early evening is the best possible time to see diurnal animals and a little later is the best time for nocturnal wildlife, so a game drive combined with sundowners gives you the best of both worlds.

Walking safaris: There are wonderful opportunities in the area for walking. The South Luangwa is home of the walking safari and it remains the best way to experience the sights and sounds of the bush. Guided walks are conducted by a professional guide and an armed parks scout. It is on foot that Sanctuary's guides can show you some of the most fascinating signs of the bush, many of which are hard to spot from a vehicle. It's not just the big animals that are fascinating - termites, dung beetles and chameleons all have their stories to tell too. The park hosts many herds of the endemic Thornicroft giraffe which can always be found in the prolific Mopane woodland on the valley floor.

PHILANTHROPY PROJECT

Uyoba School: Uyoba is a community school in Mfuwe located just outside the GMA for South Luangwa National Park. There are currently over 630 pupils operating out of 4 classrooms and one shaded structure made by the parents and teachers. It is estimated that 35% of the pupils are considered to be OVC's (orphaned or vulnerable children). The school's income solely comes from school fees of which are not mandatory for families to pay. Due to the school being a community school (meaning it was started by the community, not the District Education Board) the local government does not heavily support the school providing it with limited if any resources. The grades covered by the school reach up to grade 7, for higher education the pupils have to go to a high school which is government run with much higher school fees. Sanctuary Retreats has pledged to make a contribution towards the various projects for every night a guest stays at any one of our properties in Zambia. Sanctuary Retreats' recent support to the school has been in the form of pupils' desks. We had 20 desks made in Lusaka; and shipped them to the school. Prior to this donation, many pupils were using limited desk space or planks of wood on their laps in order to write in class; a much needed donation!

Pack for a purpose: We are proud members of Pack for a Purpose, an initiative that allows travellers to make a lasting impact in the community at your travel destination. If you save a few kilos of space in your suitcase and bring supplies for area schools or medical clinics in need - you'll make a priceless impact in the lives of our local children and families.
